Q2 2025 Phase 4

- Create exclusive **marketplace** for Hemp Therapies products

Q3-Q4 2025 Phase 5

- Ensure **international** product **availability**
- Introduce gummies and skincare products under EviBloom

Q4 2024 Phase 1

Foundation and Setup

Website Transition

Rebrand and restructure the Hemp Therapies website into the central project hub

Include sections for whitepapers, tokenomics, roadmap, and presale details

Emphasize the utility of CBD OIL tokens for accessing discounted CBD products

Product Manufacturing Preparation

Finalize manufacturing plans for an initial batch of CBD oils, ensuring compliance with practitioner-grade standards

Plugin Development Initiation

Begin customization of the Solana Merchant Payments plugin for future integration with the Hemp Therapies WooCommerce store

Documentation Finalization

Publish the official whitepaper, tokenomics, and roadmap to foster transparency and community trust

Prepare marketing materials for the presale campaign

Q1 2025 Phase 2

Presale and Market Awareness

Presale Launch

Conduct the CBD OIL token presale on PinkSale:

Allocation: 35% of total supply (350 million tokens)

Price: \$0.005 per token

Investment Limits: Minimum \$10 (2000 tokens), maximum \$1000 (200,000 tokens)

Fundraising Goal: \$1,050,000 to support liquidity, development, and marketing

Community Engagement

Launch the BuddyBoss platform for fostering community discussions and updates

Share daily presale progress reports and project updates via BuddyBoss and Twitter

Targeted Marketing Campaigns

Promote the presale through focused campaigns on Twitter, Instagram, and Telegram

Leverage the founder's narrative of overcoming CBD industry challenges to build trust

Q1 2025 Phase 3

Initial Product Launch and Token Generation Event

Token Generation Event (TGE)

Officially launch the CBD OIL token after the presale concludes

Initial Product Launch

Launch Full Spectrum and Broad Spectrum CBD oils on the Hemp Therapies WooCommerce store

Token holders enjoy 50%-70% discounts, driving adoption and token utility

Store and Token Integration

Enable CBD OIL payments in the WooCommerce store through the customized Solana Merchant Payments plugin

Liquidity Deployment

Allocate 65% of presale funds to locked liquidity, with a phased release over 10 years

Q2 2025 Phase 4

Marketplace Integration & Community Growth

Marketplace Launch

Add a marketplace to the Hemp Therapies platform, focusing exclusively on Hemp Therapies products and using CBDOIL tokens as the sole payment method

Continuous Community Engagement

Maintain active communication and updates through BuddyBoss and Twitter

Share progress reports, gather feedback, and involve the community in key decisions

Customer Feedback and Optimization

Use insights from token holders and product users to refine store functionality and improve the user experience

Q3-Q4 2025 Phase 5

Global Availability & Product Line Expansion

Global Market Launch

Ensure Hemp Therapies products are available internationally, adhering to regional compliance standards

New Product Development

Expand the product line to include:

- Full Spectrum CBG and CBN oils

- CBD gummies and skincare products under the new EviBloom brand

Targeted Marketing Campaigns

- Promote new product lines with an emphasis on CBDOIL token utility and affordability

- Highlight the benefits of using CBDOIL tokens for discounted purchases

CBDOIL Presale
